|  | YEAR ONE |
| :---: | :---: |
|  | New Objectives |
| AUTUMN 1 | PLACE VALUE <br> - Count to and across 100, forwards and backwards, beginning with 0 or 1, or from any given number <br> - Counting in multiples of twos, fives and tens as appropriate <br> - Count in multiples of two to 20. <br> - Count in multiples of five to 50 . <br> - Count in multiples of ten to 100. <br> - Count, read and write numbers to 100 in numerals <br> - Read and write numbers from 1 to 20 in numerals and words <br> - Identify and represent numbers using objects and pictorial representations including the number line, and use the language of: equal to , more than, less than (fewer), most, least <br> - Given a number, identify one more and one less(numbers between 1 and 100) |
| AUTUMN 2 | ADDITION AND SUBTRACTION <br> - Read, write and interpret mathematical statements involving (+), subtraction (-) and equals (=) signs <br> - Represent and use bonds and related subtraction facts within 20 <br> - Add and subtract one-digit and two-digit numbers to 20 , including zero |
| SPRING 1 | MULTIPLICATION AND DIVISION <br> - Count in multiples of twos, fives and tens. <br> - Solve one-step problems involving multiplication and division by calculating the answer using concrete objects, pictorial representations and arrays with the support of the teacher. <br> FRACTIONS <br> - Recognise, find and name a half as one of two equal parts of an object, shape or quantity. <br> - Recognise, find and name a quarter as one of four equal parts of an object, shape or quantity. |
| SPRING 2 | MEASURE <br> - Compare, describe and solve practical problems for: <br> - lengths and heights [for example, long/short, longer/shorter, tall/short, double/half] <br> - Measure and begin to record lengths and heights |

|  | - Compare, describe and solve practical problems for: <br> - mass/weight [for example, heavy/light, heavier than, lighter than] <br> - Measure and begin to record mass and weight <br> - Compare, describe and solve practical problems for: <br> - capacity and volume [for example, full/empty, more than, less than, half, half full, quarter] <br> - Measure and begin to record capacity and volume <br> - Sequence events in chronological order using language [for example, before and after, next, first, today, yesterday, tomorrow, morning, afternoon and evening] <br> - Recognise and use language relating to dates, including days of the week, weeks, months and years <br> - Tell the time to the hour and half past the hour and draw the hands on a clock face to show these times. <br> - Compare, describe and solve practical problems for: <br> - time [for example, quicker, slower, earlier, later] <br> - Measure and begin to record time (hours, minutes, seconds) <br> - Recognise and know the value of different denominations of coins and notes. |
| :---: | :---: |
| SUMMER 1 | GEOMETRY <br> - Recognise and name common 2-D shapes, including for example, rectangles, squares circles and triangles <br> - Recognise and name common 3-D shapes, including for example, cuboids, cubes pyramids and spheres <br> - Describe position, direction and movement, including whole, half, quarter and three-quarter turn |
| SUMMER 2 |  |

| KPI's | New Objectives |
| :---: | :---: |
| AUTUMN 1 | PLACE VALUE <br> - Count in steps of 2, 3 and 5 from 0 and in tens from any number, forward and backward (solve problems involving counting) <br> - Recognise the place value of each digit in a two-digit number (tens, ones) <br> - Read and write numbers to at least 100 in numeral and in words <br> - Compare and order numbers from 0 up to 100; use < > and = signs <br> - Identify, represent and estimate numbers using different representations, including the number line <br> - Use place value and number facts to solve problems (place value) <br> ADDITION AND SUBTRACTION <br> - Recall and use addition and subtraction facts to 20 fluently, and derive and use related facts up to 100 <br> - Recognise odd and even numbers <br> - Recognise and use the inverse relationship between addition and subtraction and use this to check calculations and solve missing number problems <br> - Add and subtract numbers using concrete objects pictorial representations including; <br> - A two-digit number and ones <br> - A two-digit number and tens <br> - Two two-digit numbers <br> - Adding three one-digit numbers <br> - Add and subtract numbers mentally, including; <br> - A two-digit number and ones <br> - A two-digit number and tens <br> - Two two-digit numbers <br> - Adding three one-digit numbers <br> - Show that addition of two numbers can be done in any order (commutative) and subtraction of one number from another cannot <br> - Solve problems with addition and subtraction; <br> - Using concrete objects and pictorial representations, including those involving numbers, quantities and measures <br> - Applying their increasing knowledge of mental and written methods <br> - Recognise and use the inverse relationship between addition and subtraction and use this to check calculations and solve missing number problems |
| AUTUMN 2 | PLACE VALUE <br> - Count in steps of 2, 3 and 5 from 0 and in tens from any number, forward and backward (solve problems involving counting) |

- Recognise the place value of each digit in a two-digit number (tens, ones)
- Read and write numbers to at least 100 in numeral and in words
- Compare and order numbers from 0 up to 100; use < > and = signs
- Identify, represent and estimate numbers using different representations, including the number line
- Use place value and number facts to solve problems (place value)

ADDITION AND SUBTRACTION

- Recall and use addition and subtraction facts to 20 fluently, and derive and use related facts up to 100
- Recognise odd and even numbers
- Recognise and use the inverse relationship between addition and subtraction and use this to check calculations and solve missing number problems
- Add and subtract numbers using concrete objects pictorial representations including;
- A two-digit number and ones
- A two-digit number and tens
- Two two-digit numbers
- Adding three one-digit numbers
- Add and subtract numbers mentally, including;
- A two-digit number and ones
- A two-digit number and tens
- Two two-digit numbers
- Adding three one-digit numbers
- Show that addition of two numbers can be done in any order (commutative) and subtraction of one number from another cannot
- Solve problems with addition and subtraction;
- Using concrete objects and pictorial representations, including those involving numbers, quantities and measures
- Applying their increasing knowledge of mental and written methods
- Recognise and use the inverse relationship between addition and subtraction and use this to check calculations and solve missing number problems

## MULTIPLICATION AND DIVISION

- Recall and use multiplication and division facts for 2,5 and 10 multiplication tables including recognising odd and even numbers
- Calculate mathematical statements for multiplication and division within the multiplication tables and write them using the multiplication (x),

|  | division $(\div)$ and equals ( $=$ ) signs <br> - Show that multiplication of two numbers can be done in any order (commutative) and division of one number by another cannot <br> - Solve problems involving multiplication and division, using materials, arrays, repeated addition, mental methods, and multiplication and division facts, including problems in contexts. |
| :---: | :---: |
| SPRING 1 | MULTIPLICATION AND DIVISION <br> - Recall and use multiplication and division facts for 2,5 and 10 multiplication tables including recognising odd and even numbers <br> - Calculate mathematical statements for multiplication and division within the multiplication tables and write them using the multiplication (x), division $(\div)$ and equals ( $=$ ) signs <br> - Show that multiplication of two numbers can be done in any order (commutative) and division of one number by another cannot <br> - Solve problems involving multiplication and division, using materials, arrays, repeated addition, mental methods, and multiplication and division facts, including problems in contexts. <br> FRACTIONS <br> - Recognise, find, name and write fractions $1 / 3,1 / 4,2 / 4$ and $3 / 4$ of a length, shape set of objects or quantity <br> - Write simple fraction for example, $1 / 2$ of $6=3$ and recognise the equivalence of $2 / 4$ and $1 / 2$ <br> MEASURE <br> - Choose and use appropriate standard units to estimate and measure length/height in any direction ( $\mathrm{m} / \mathrm{cm}$ ); mass ( $\mathrm{kg} / \mathrm{g}$ ); temperature $\left({ }^{\circ} \mathrm{C}\right)$; capacity (litres/ml) to the nearest appropriate unit, using rulers, scales, thermometers and measuring vessels <br> - Compare and order lengths, mass, volume/capacity and record the results using >, < and = <br> - Recognise and use symbols for pounds ( $£$ ) and pence ( $p$ ); combine amounts to make a particular value <br> - Find different combinations of coins that equal the same amounts of money <br> - Solve simple problems in a practical context involving addition and subtraction of money of the same unit, including giving change <br> - Compare and sequence intervals of time <br> - Know the number of minutes in an hour and the number of hours in a day. <br> - Tell and write the time to five minutes, including quarter past/to the hour and draw the hands on a clock face to show these times. |
| SPRING 2 | GEOMETRY <br> - Identify and describe the properties of 2-D shapes, including the number of sides and line symmetry in a vertical line <br> - Identify and describe the properties of 3-D shapes, including the number of edges, vertices and faces |

## Smithdown Primary Maths Yearly Overview

|  | - Recall and use multiplication and division facts for 3,4 and 8 multiplication tables <br> - Write and calculate mathematical statement for multiplication and division using the multiplication tables that they know, including for two-digit numbers times one-digit numbers, using mental and progressing into formal written methods <br> Solve problems, including missing number problems, involving multiplication and division, including integer scaling problems and correspondence problems in which n objects are connected to m objects <br> FRACTIONS AND DECIMALS <br> - Count up and down in tenths; recognise that tenths arise from dividing an object into 10 equal parts and dividing one-digit numbers or quantities by 10 <br> - Recognise, find and write fractions of a discrete set of objects: unit fractions and non-unit fractions with small denominators <br> - Recognise and use fractions as numbers: unit fractions and non-unit fractions with small denominators <br> - Recognise and show, using diagrams, equivalent fractions with small denominators (halves, quarters, thirds) <br> - Compare and order unit fractions, and fractions with the same denominators <br> Solve problems involving fractions |
| :---: | :---: |
| SPRING 2 | MEASURE <br> - Measure, compare, add and subtract: lengths ( $\mathrm{m} / \mathrm{cm} / \mathrm{mm}$ ); mass ( $\mathrm{kg} / \mathrm{g}$ ); volume/capacity ( $\mathrm{I} / \mathrm{ml}$ ) <br> - Measure the perimeter of simple 2-D shapes <br> - Add and subtract amounts of money to give change, using both $£$ and $p$ in practical contexts <br> - Add and subtract: lengths ( $\mathrm{m} / \mathrm{cm} / \mathrm{mm}$ ); mass ( $\mathrm{kg} / \mathrm{g}$ ); volume/capacity ( $\mathrm{I} / \mathrm{ml}$ ) <br> - Tell and write the time from an analogue clock, including using Roman numerals from I to XII, and 12-hour and 24-hour clocks <br> - Estimate and read time with increasing accuracy to the nearest minute; record and compare time in terms of seconds, minutes, hours and o'clock; use vocabulary such as am/pm, morning, afternoon, noon and midnight <br> - Know the number of seconds in a minute and the number of days in each month, year and leap year <br> - Compare duration of events, for example to calculate the time taken by particular events or tasks <br> - Compare: lengths ( $\mathrm{m} / \mathrm{cm} / \mathrm{mm}$ ); mass ( $\mathrm{kg} / \mathrm{g}$ ) and volume ( $\mathrm{l} / \mathrm{ml}$ ) <br> - Measure: lengths ( $\mathrm{m} / \mathrm{cm} / \mathrm{mm}$ ); mass ( $\mathrm{kg} / \mathrm{g}$ ) and volume/capacity ( $1 / \mathrm{ml}$ ) |
| SUMMER 1 | GEOMETRY <br> - Draw 2-D shapes and make 3-D shapes using modelling materials; recognise 3-D shapes in different orientations and describe them <br> - Recognise that angles are a property of shape or description of a turn <br> - Identify right angles, recognise that two right angles make a half turn, three make three quarters of a turn and four a complete turn; identify whether angles are greater than or less |

## Smithdown Primary Maths Yearly Overview

|  | • than a right angle <br> $\bullet$ <br> Identify horizontal and vertical lines and pairs of perpendicular and parallel lines |  |
| :--- | :--- | :--- | :--- |
| SUMMER 2 | STATISTICS <br> • Interpret and present data using bar charts, pictograms and tables. <br> Solve one-step and two-step questions such as 'How many more?' and 'How many fewer?' using information presented in scaled bar <br> charts, pictograms and tables. |  |

|  | YEAR FOUR |  |
| :---: | :---: | :---: |
| KPI's | New Objectives | KPI's |
| AUTUMN 1 | PLACE VALUE <br> - Count in multiples of $6,7,9,25$ and 1000 <br> - Find 1000 more or less than a given number <br> - Count backwards through zero to include negative numbers <br> - Order and compare numbers beyond 1000 <br> - Recognise the place value of each digit in a four -digit number (thousands, hundreds, tens and ones) | AUTUMN 1 |

|  | - Identify, represent and estimate numbers using different representations <br> - Round any number to the nearest 10,100 or 1000 <br> - Solve number and practical problems that involve all of the above with increasingly large positive numbers, number and place value |  |
| :---: | :---: | :---: |
| AUTUMN 2 | ADDITION AND SUBTRACTION <br> - Add and subtract numbers with up to four digits using formal written methods of columnar addition and subtraction where appropriate <br> - Estimate and use inverse operations to check answers to a calculation <br> - Solve addition and subtraction two - step problems in contexts, deciding which operations and methods to use and why | AUTUMN 2 |
| SPRING 1 | MULTIPLICATION AND DIVISION <br> - Recall multiplication and division facts of multiplication tables up to $12 \times 12$ ( $6,7,9,11$ and 12) <br> - Use place value, known derived facts to multiply and divide mentally, including; multiplying by - and 1 ; dividing by $1^{\prime}$ multiplying together three numbers <br> - Recognise and use factor pairs and commutativity in mental calculations. <br> - Multiply two-digit and three-digit by a one-digit number using formal written layout <br> - Solve problems involving multiplying and adding, including using the distributive law to multiply two digit numbers by one digit, integer scaling problems and harder correspondence problems such as n objects are connected to m objects | SPRING 1 |
| SPRING 2 | FRACTIONS AND DECIMALS <br> - Add and subtract fractions with the same denominator <br> - Recognise and show, using diagrams, families of common equivalent fractions (halves, thirds, quarters, fifths, eights, tenths) <br> - Count up and down in hundredths; recognise that hundredths arise when dividing an object by a hundred and dividing tenths by ten <br> - Recognise and write decimal equivalents of any number of tenths or hundredths <br> - Recognise and write decimal equivalents to $1 / 4,1 / 2$, and $3 / 4$ <br> - Find the effect of dividing a one or two digit number by 10 and 100 , identifying the value of the digits in the answer as units, tenths and hundredths. | SPRING 2 |

|  | - Round decimals with one decimal place to the nearest whole number <br> - Compare numbers with the same number of decimal places up to two decimal places <br> - Solve problems involving increasingly harder fractions to calculate quantities, and fractions to divide quantities, including nonunit fractions where the answer is a whole number <br> GEOMETRY <br> - Compare and classify geometric shapes, including quadrilaterals and triangles, based on their properties and sizes <br> - Identify acute and obtuse angles and compare and order angles up to two right angles <br> - Identify lines of symmetry in 2-D shapes presented in different orientations <br> - Complete a simple symmetric figure with respect to a specific line of symmetry <br> - Describe positions on a 2-D grid as coordinates in the first quadrant <br> - Describe movement between positions as translations of a given unit to the left/right and up/down <br> - Plot specified points and draw sides to complete a given polygon |  |
| :---: | :---: | :---: |
| SUMMER 1 | MEASURE <br> Convert between different units of measure e.g. km to m; hour to minute) <br> - Measure and calculate the perimeter of a rectilinear figure (including squares) in centimetres and metres. <br> - Find the area of rectilinear shapes by counting squares. <br> - Estimate, compare and calculate different measures, including money in pounds and pence. <br> - Read, write and convert time between analogue and digital, 12 and 24 - hour clocks <br> - Solve simple measure and money problems involving fractions and decimal problems to two decimal places. <br> - Solve problems, involving converting from hours to minutes; minutes to seconds; years to months; weeks to days. <br> STATISTICS <br> - Interpret and present discrete and continuous data using appropriate graphical methods, including bar charts and time graphs <br> - Solve comparison, sum and difference problems using information presented in bar charts, pictograms, tables and other graphs | SUMMER 1 |
| SUMMER 2 | - Read Roman numerals to 100 (I to C)and know that over time, the numeral system changed to include the concept zero and place value | SUMMER 2 |

|  | YEAR FIVE |
| :---: | :---: |
| KPI's | New Objectives |
| AUTUMN 1 | PLACE VALUE <br> - Read, write, order and compare numbers to at least 1,000,000 and determine the value of each digit <br> - Count forwards or backwards in steps of powers of 10 for any given number up to $1,000,000$ <br> - Interpret negative numbers in context, count forwards and backwards with positive and negative whole numbers, including through zero <br> - Round any number up to $1,000,000$ to the nearest $10,100,1000,10,000,100,000$ <br> - Read Roman numerals to 100 (M) and recognise years written in Roman numerals <br> - Solve number problems and practical problems that relate to number above (and place value) <br> ADDITION AND SUBTRACTION <br> - Add and subtract whole numbers with more than 4 digits, including using formal written methods (columnar addition and subtraction) |

|  | - Add and subtract numbers mentally with increasingly large numbers <br> - Use rounding to check answers to calculations and determine, in the context of a problem, levels of accuracy <br> - Solve addition and subtraction multi - step problems in contexts, deciding which operations and methods to use and why |
| :---: | :---: |
| AUTUMN 2 | MULTIPLICATION AND DIVISION <br> - Identify multiples and factors, including finding all factor pairs of a number, and a common factor of two numbers <br> - Know and use the vocabulary of prime numbers, prime factors and composite (non-prime) numbers <br> - Establish whether a number up to 100 is a prime and recall prime numbers up to 19 <br> - Multiply numbers up to 4 digits by a one- or two- digit number using a formal written method, including long multiplication for two-digit numbers <br> - Multiply and divide numbers mentally drawing upon known facts <br> - Divide numbers up to a 4 digits by a one-digit number using formal written method of short division and interpret remainders appropriately for the context <br> - Multiply and divide whole numbers and those involving decimals by 10, 100 and 1000 <br> - Recognise and use square numbers and cube numbers, and the notation for squared $\left(^{2}\right)$ and cubed $\left({ }^{3}\right)$ <br> - Solve problems involving multiplication and division including using their knowledge of factors and multiples, squares and cubes <br> - Solve problems involving addition, subtraction, multiplication and division and a combination of these, including understanding the meaning of the equals sign |
| SPRING 1 | FRACTIONS, DECIMALS AND PERCENTAGES <br> - Compare and order fractions whose denominators are all multiples of the same number <br> - Add and subtract fractions with the same denominator and denominators that are multiples of the same number <br> - Identify, name and write equivalent fractions of a given fraction, represented visually, including tenths and hundredths <br> - Recognise mixed numbers and improper fractions and convert from one form to the other and write mathematical statements > 1 as a mixed number [for example, $2 / 5+4 / 5=6 / 5=1$ ] <br> - Multiply proper fractions and mixed numbers by whole numbers, supported by materials and diagrams <br> - Read and write decimal numbers as fractions [for example, $0.71=71 / 100$ ] <br> - Recognise and use thousandths and relate them to tenths, hundredths and decimal equivalents <br> - Round decimals with two decimal places to the nearest whole number and to one decimal place <br> - Read, write, order and compare numbers with up to three decimal places <br> - Recognise the per cent symbol (\%) and understand that per cent relates to 'number of parts per hundred', and write percentages as a fraction with denominator 100 , and as a decimal <br> - Solve problems involving numbers up to three decimal places |

|  | - Solve problems involving multiplication and division, including scaling by simple fractions and problems involving simple rates <br> - Solve problems which require knowing percentage and decimal equivalents of $1 / 21 / 41 / 5 \quad 2 / 54 / 5$ and those fractions with a denominator or a multiple of 10 or 25 |
| :---: | :---: |
| SPRING 2 | MEASURE <br> - Convert between different units of metric measure (for example, kilometre and metre; centimetre and metre; centimetre and millimetre; gram and kilogram; litre and millilitre) <br> - Understand and use approximate equivalences between metric units and common imperial units such as inches, pounds and pints. <br> - Measure and calculate the perimeter of composite rectilinear shapes in centimetres and metres. <br> - Calculate and compare the area of rectangles (including squares), and including using standard units, square centimetres (cm2) and square metres (m2) and estimate the area of irregular shapes. <br> - Estimate volume [for example, using 1 cm 3 blocks to build cuboids (including cubes)] and capacity [for example, using water] <br> - Solve problems involving converting between units of time. <br> - Use all four operations to solve problems involving measure [for example, length, mass, volume, money] using decimal notation, including scaling. |
| SUMMER 1 | GEOMETRY <br> - Identify 3-D shapes, including cubes and other cuboids, from 2-D representations <br> - Know angles are measured in degrees: estimate and compare acute, obtuse and reflex angles <br> - Draw given angles, and measure them in degrees $\left({ }^{\circ}\right)$ Identify: <br> -angles at a point and one whole turn (total $360^{\circ}$ ) angles at a point on a straight line and a $1 / 2$ turn (total $180^{\circ}$ ) -other multiples of $90^{\circ}$ <br> - Use the properties of rectangles to deduce related facts and find missing lengths and angles <br> - Distinguish between regular and irregular polygons based on reasoning about equal sides and angles <br> - Identify, describe and represent the position of a shape following a reflection or translation, using the appropriate language, and know that the shape has not changed |
| SUMMER 2 | STATISTICS <br> - Solve comparison, sum and difference problems using information presented in a line graph <br> - Complete, read and interpret information in tables, including timetables. <br> Complete comparison, sum and difference problems using information in tables, including timetables. |

|  | YEAR SIX |
| :---: | :---: |
| KPI's | New Objectives |
| AUTUMN 1 | PLACE VALUE <br> - Read, write, order and compare numbers to at least $1,000,000$ and determine the value of each digit <br> - Round any whole number to a required degree of accuracy <br> - Use negative numbers in context, and calculate intervals across zero <br> - Solve number and practical problems that involve all of the above (number and place value) <br> FOUR OPERATIONS <br> - Multiply multi-digit numbers up to 4 digits by a two-digit whole number using the formal written method of long multiplication <br> - Use their knowledge of the order of operations to carry out calculations involving the four operations <br> - Divide number up to 4 digits by a two-digit whole number using the formal written method of long division, and interpret remainders as whole number remainders, fractions or by rounding, as appropriate for the context <br> - Divide numbers up to 4 digits by a two-digit number using the formal written method of short division where appropriate interpreting remainders according to the context <br> - Perform mental calculations, including with mixed operations and large numbers <br> - Use their knowledge of the order of operations to carry out calculations involving the four operations <br> - Identify common factors, common multiples and prime numbers <br> - Solve addition and subtraction multi-step problems in contexts, deciding which operations and methods to use and why |

|  | - Solve problems involving addition, subtraction, multiplication and division <br> - Use estimation to check answers to calculations and determine, in the context of a problem, an appropriate degree of accuracy <br> - Identify the value of each digit in numbers given to three decimal places and multiply and divide numbers by 10, 100 and 1000 giving answers up to three decimal places <br> - Multiply one- digit numbers with up to two decimal places by whole numbers |  |
| :---: | :---: | :---: |
| AUTUMN 2 | FRACTIONS and DECIMALS <br> - Use common factors to simplify fractions; use common multiples to express fractions in the same denomination <br> - Compare and order fractions, including fractions $>1$ <br> - Add and subtract fractions with a different denominators and mixed numbers, sing the concept of equivalent fractions <br> - Multiply simple pairs of proper fractions, writing the answer in its simplest form for example, $1 / 4 \times 1 / 2=1 / 8$ <br> - Divide proper fractions by whole numbers for example, $1 / 3 \div 2=1 / 6$ <br> - Associate a fraction with division and calculate decimal fraction equivalents for example, 0.375 for a simple fraction, for example 3/8 <br> - Use written division methods in cases where the answer has up to two decimal places <br> - Recall and use equivalence between simple fraction, decimals and percentages, including in different contexts |  |
| SPRING 1 | PERCENTAGES, RATIO AND PROPORTION <br> - Solve problems involving the calculation of percentages (for example, of measures and such as $15 \%$ of 360 ) and the use of percentages for comparison <br> - Solve problems involving the relative sizes of two quantities where missing values can be found using integer multiplication and division facts <br> - Solve problems involving the calculation involving similar shapes where the scale factor is known or can be found <br> - Solve problems involving the calculation of percentages (for example, of measures and such as $15 \%$ of 360 ) and the use of percentages for comparison <br> - Solve problems involving unequal sharing and grouping using knowledge of fractions and multiple <br> - Solve problems involving the relative sizes of two quantities where missing values can be found by using integer multiplication and division facts <br> MEASURE |  |

## Smithdown Primary Maths Yearly Overview
